Mr. T Thounhurst (State)

Mr. N. Vint (Treasury/SS)

[redacted] SECOM Staff

**FACILITY PROTECTION SUBCOMMITTEE
MINUTES OF THE TWENTY-NINTH MEETING
WEDNESDAY, 23 OCTOBER 1985
1000 HOURS, AMES BUILDING, ROSSLYN, VA**

Members Present

STAT Mr. G. Berkin, Chairman
[redacted] CIA
Ms. R. Long, OSD
Mr. F. Wirth, Army
STAT [redacted] NSA
Mr. T. Thounhurst, State
Ms. M. Forrester, DOJ
Mr. R. Schmeltz, Navy
STAT [redacted] DIA
Mr. S. Slaughter, DOE
Ms. C. Bromwell, Executive Secretary

Also Present

STAT CPT T. Schneider, AF
[redacted] SECOM Staff

Members Not Present

Mr. T. Forgas, FBI
Mr. N. Vint, Treasury

1. General. The Minutes of the 25 September meeting were approved with an amendment offered by Army: the word "feasible" in paragraph 2 be changed to "practical"; the Subcommittee concurred with the proposed change.

2. Chairman's Report. The Chairman distributed to the members copies of the Westinghouse proprietary Automated Explosive Detection Technology brochure.

The Chairman read his memo to SECOM on the issue of classification of DCID 1/21. It reported the Subcommittee's unanimous decision that DCID 1/21 should be FOUO. The NSA member mentioned that his SECOM principal wanted it classified and that he would continue to press for the FOUO issuance.

STAT [redacted] the SECOM Staff Advisor, asked Justice to further explain its problems with the BRUTE lock. DOJ reiterated the problem: because of acoustic rating requirements, GSA gave DOJ a fire door rather than a regular corridor access door. Policy, therefore, requires a fire-rated lock. Since the last meeting, DOJ, through the assistance of IACSE, met with the Accident Fire Prevention Branch, GSA, and Sargent and Greenleaf and had the issue resolved; the BRUTE lock was approved. Similar cases will be decided on a case-by-case basis. DOJ mentioned that 3 position combination locks also aren't fire rated and that may be a potential problem.

CIA recommended community representation on Fire/Safety professional bodies and on OSHA panels which deal with fire issues in order to have SCIFs listed as a special category in Fire Codes.

The Chairman asked the CIA member to check if OSHA was receptive to a meeting to discuss concerns in this area and the Chairman would send a formal letter as a follow up.

STAT 3. October Seminar. The SECOM staff advisor asked AF and Army to provide missing clearances. Army recommended that for future seminars, information on where, how and to whom clearance should be sent be included in the information packets mailed to the proposed attendees. The DOE, DIA and NSA members will assist [] on Tuesday, Wednesday and Thursday, respectively.

STAT 4. Contractor Seminar. Arrangements will be made to have Mr. Dave Tindal from the Navy make a presentation on what he has done regarding the Contractor Seminar at Airlie Lodge. [] mentioned that [] wanted a meeting of the Subcommittee and the speakers prior to the seminar to present a "united front". The Chairman considered this impractical and will develop a briefing sheet for the speakers which will acquaint them with SECOM policy objectives, release of information to contractors, etc. Introductory remarks to attendees should also explain the purpose of the seminar. The CIA member said he would try to attend the entire seminar. The members were asked to be present for as many sessions as possible.

5. DCID 1/21 - CIA will provide a rewrite of their input and will attempt to use the Wang diskettes on which the entire text is stored to produce a revised draft of the complete DCID. The revised draft will be distributed to the Members who should be prepared to discuss the draft in detail by the January 1986 meeting. The Navy Member reported on a test of the FIDS; the FPS decided not to alter the draft DCID to reflect the test results. OSD will provide a copy of the test report to the FPS when it becomes available.

6. Contract-Operated Communications Centers. The CIA member raised the issue of communications centers run by contractors and the problem of sending messages with the NOCONTRACT caveat. DOE has a number of these centers and Army has a few. Army reports that exceptions to DCID 1/7 had been approved by SECOM. Circular A76 allows for the contracting of communications centers. The members agreed that while this may be a problem, it is a concern that should be brought to the SECOM and not to the FPS as it concerns information security.

7. Member Reports.

State: Physical security of the building continues to be upgraded.

NSA: Still involved in finding and approving leased space.

Army: Special Security Group gave a briefing to the ACSI, General Weinstein, on SCIF accreditation. Army desires to produce its own simplified version of DCID 1/21.

DOE: Has a new Acting Deputy Assistant Secretary for Security Affairs, retired Marine Col E. V. Badolato.

AF: Is having its annual SSO conference in November.

OSD: Reviewed the latest draft of the Stilwell Commission. It has 88 recommendations; not much in the physical security area.

Navy: Due to the reorganization, NIS is currently addressing the issues of TEMPEST and ADP authority.

CIA: Attended the ASIS conference in Dallas TX. Nothing really new. Art Metal containers appear substantial. Their new lock, however, is difficult to use.

8. The next meeting of the FPS is scheduled for 1000 hours, 20 November, 1985 at the Ames Building, 1820 Ft. Myer Drive, Rosslyn, VA. The room number will be provided at the reception desk.
